The Election of Congressmen
We command the following from the Louisville Courier, to the Democracy as worthy of special attention in view of the approaching election:

Our friends throughout the State cannot be too deeply impressed with the importance of bringing out the entire strength of the party at the election to be held on Saturday, the fourth day of May. The interval between now and that time is short, but with zeal and energy it is quite long enough to secure for our candidates such majorities as we may be proud of.

The accounts from the several Districts are full of encouragement. In the First, the election of Trimble is a certainty. In the Second, our eloquent standard bearer, John Young Brown, is sweeping all before him, and should a full vote be polled, is sure of obtaining a large majority over the combined strength of the Radical and third party candidates. In the Third, Mr. Blakey, representing one wing of the opposition, contests the election with that powerful advocate of truth Judge Hise, and should be rebuked for his presumption by an overwhelming vote. In the Fourth, the fearless advocacy of constitutional principles by J. Proctor Knott deserves, and will obtain the endorsement of a very large majority over his opponents. In the Fifth, all that is necessary to enable Grover, the champion of Democracy, to do the same thing is the bringing out of a full vote. In the Sixth and Seventh Districts, Jones and Beck have no serious opposition, but they are both entitled to large majorities, and should receive them.

In the Eighth, there is good reason to believe that Adams will, by proper exertion on the part of his friends, beat his Radical competitor by a handsome majority. In the Ninth, we have similarly flattering prospects for our nominee, Judge Young. By proper exertions our friends will not only secure a full Democratic delegation in Congress, but they can do it by a majority greater in the aggregate than that of Duvall. We trust no Democrat in Kentucky will fail to vote on the fourth of May.

J. Proctor Knott.

From the tone of our exchanges it seems that the people are fully alive to the importance of the election soon to transpire in our midst. Our candidate for congress J. Proctor Knott who favored us a short time ago with a visit and a speech, than which no better has been made in our town for years, has proved himself the man for the crisis. Bold, decisive and purely democratic he bears our noble banner aloft with honor to himself and the great party that so cheerfully places him in front of their standard bearer.

So feels his opposition that he had not been fully aroused, except to the importance of the occasion and the responsibility he has accepted. Indeed we might say he has no opposition. It is true there is a man by the name of Headley, living in Bullitt, Nelson or some other county in the district who says he is a candidate, but so seldom is his name mentioned in connection with the race that he is elected, it must be by the votes of spirits from the vasty deep. We have also heard that Col. Marion Lewis was a radical candidate but we have not seen an authorized announcement and do not know positively that he has consented to be a political martyr in this district for the great progressive negro-suffrage military despotism party.

The eloquence and logic of Mr. Knott have made him hosts of admirers in this district and he will be elected undeniably by an almost unanimous vote. Vox populi vox dei, and the voice of the people throughout our glorious old Kentucky will speak in thundering tones in May against the maddened schemes of oppression and tyranny that will make the followers of Stevens, Butler, Brownlow and the Devil shake with fear, and dreadful forebodings.—Elizabethian Banner.

HON. JOE DAVIS.—We see it stated that an effort is being made by the friends of this gentleman to get his consent to run for the State Senate from Shelby. Mr. Davis would indeed make a good Senator, for as a member of the other House he was industrious and attentive, and some of the most useful legislation of the past session owed its origin to him. He is a sound Democrat, and has never bowed the knee to Baal at any time, but he is nevertheless free from all taint of bigotry and partizanship. We take pleasure in bearing our unqualified testimony to his fitness for the position to which his friends desire to elect him.—Kentucky Gazette.

The Proposed National Democratic Convention—Should the Call for the Convention be Withdrawn.

At the 22d of February Convention resolutions were introduced providing for a National Democratic Convention to meet in Louisville. We moved to lay the resolutions on the table, which was seconded, if we recollect correctly, by R. J. Breckinridge, Esq., and Maj. B. F. Buckner, and supported by a respectable minority vote. Through the mistake of the reporter this part of the proceedings was omitted in the report, and the resolutions went forth as having passed without opposition and unanimously. The resolutions were passed without reference, under the rule, to a committee, and without that deliberation which, we think, the importance of the step demanded.

1st. We opposed the convention then because we believed it not to be a necessity. Under present circumstances we oppose it as unnecessary if not harmful. 2d.

We opposed the resolutions because we doubted the authority of our State Convention to make such a call. Such a convention is necessary at this time, since the issues between democracy and radicalism are clearly marked and defined, and the vital principles of our party are clearly and uniformly enunciated by the platforms of the Democracy of the several States. As to the authority, we would say that inasmuch as there is a national organization and a National Executive Committee, in our humble judgment a State Convention has only the right to recommend, not the right to call a National Convention. The friends of the measure had no design to ignore the authority of the National Committee, but on the contrary, expected the co-operation of that committee, as well as the entire party in the country. Reasons that could be urged on the 22d of February for a National Convention do not now exist, and the National Committee has recently decided to hold no convention until 1865, and some of the State Democratic Conventions have adjourned without taking an action on this subject. Now if we persist in our call do we not place ourselves in antagonism with the existing organization of the party?

Moreover, it must be apparent to every one that if the proposed convention meets on the 1st of July that a large number of States will not be authoritatively represented. Now a National Democratic Convention is an authoritative body, binding in its delusions on the party, hence it is not all important for the peace and harmony of the party that every State in the Union should be fully represented? But it is suggested, to avoid conflicts, that the convention be turned unto a sort of mass meeting. In the first place there is no authority for making such a change, and in the second place no good would result from such a meeting, for the reason that a mass meeting is an irresponsible body and the party would not be bound by its action, yet would be held responsible for everything that any indiscreet and foolish person might say on such an occasion.

The object in making the call, if I understand properly, was to effect a more perfect organization of the party. Can this be effected by a convention in which half of the States are authoritatively represented? Could a mass convention effect this whose good deliveries could not be considered as emanating from the party, and whose unwise and imprudent action would be seized upon by the opposition and used to the party injury? Moreover, the Democratic party is thoroughly organized in all the States, on unconflicting platforms, embodying the vital principles of the party, of which organizations the Connecticut election is the first fraud. Is it not better, then, at this time, to thus work and labor until 1865, when the party will meet, leaving before it the history now to be made by the Radical party?

It is unnecessary to urge the importance of harmony in the Democratic party at this time. Every one must feel it who knows that the success of Democratic principles is the only hope for constitutional liberty in this country.

Feeling most deeply the great responsibility assumed by our convention in the passage of the resolution, I venture to suggest to the members of the 22d of February convention, and to Democrats throughout the State, that they immediately communicate their views as to the propriety and expediency of the convention under present circumstances, and to suggest to the Executive Committee to withdraw the call, if they believe from the expressions thus obtained that a majority of the party desire its withdrawal, and I trust that such expressions will be immediately given.

Only the deep interest I feel in the success of Democratic principles could induce me to speak with such boldness as has the appearance of presumption on my part.

J. W. DAVIS.

The Editor of the Democrat, referring to the Democratic and Third-party candidates for the Governorship, says: "They are both exemplars of Kentuckianism—Harding as a frank, honest, candid man, and Helm as the tricky and rather gifted politician." According to our neighbor's account, Kentuckianism must be a rather strange combination of qualities, embracing frankness, honesty, candor, trickery, and genius, a sort of Happy Family of attributes. This is a brand-new view of the Kentucky character. Our neighbor, we suppose, is authorized to speak for his own candidate, but we cannot admit that the Democratic candidate has any part in exemplifying such a mixture. He is an exemplar of the Kentucky character as it is understood and admired the world over.—*Lexington Journal*.

On Friday, Franklin Hazelwood, an old man and a cripple, and two sons of sixteen and eighteen years old, living near Bedford, Trimble county, Ky., were taken from home by three men with faces blackened, and tied up and whipped with raw hide; their house torn down, furniture broken, and they ordered to leave the country under penalty of death. General Burkhardt, District Commandant, and a full detachment of twenty men to the scene of the outrage to investigate the matter and arrest the guilty parties.

FRIENDSHIP'S OFFERING.

TO MISS MARY D...
BY MATE.

I bring no gold or silver,
No rubies rich and rare;
No pearls of snowy whiteness,
To twine with thy brown hair.
No coronet or diadem
Upon thy brow to place;
No regal offering fair,
Thy home and form to grace.

I bring no gay exotics,
No wreath for thee, I twine,
A pure true heart's offering,
I trust Mary is mine.
A blue eyed "forget me not,"
I place on friendship's shrine,
And may thy friendship, Mary,
Be ever truly thine.

How to Cure a Setting Hon.

"Timothy, that air yaller hen's setting again," said Mrs. Hayes to her son one morning at breakfast.

"Well, let her set," remarked Timothy; "I reckon I can stand it as long as she can."

"Now, Timothy, as soon as you are done eating, I want you to go out and break up that hen. She's setting on an old axe and two bricks now."

"I hope she'll hatch 'em," returned Timothy.

"She was set now, she'd hatch the fourth week in May. It's a bad sign; something allers happens after it. There was Jennings's folks, their gray top knot hatched the last week in May, and Miss Jennings had the conjunction on the lungs, and would have died if they hadn't killed the lamb and wrapped her in the hide while two-warm. That was all that saved her."

Timothy finished his breakfast in haste and departed for the barn, from which he soon returned, bearing the squalling Biddy by the legs.

"What shall I do with her, mother? Shell get on again, and sic's as cross as hell—she skinned my hands, and would be the death of me if she could get loose."

"I've hearn it said that it was a good plan to throw 'em up in the air," said Mrs. Hayes. "Aunt Peggy broke one of setting only three times trying. Suppose it you try it."

"Up she goes—head and tail!" cried Tim, as he tossed her skywards.

"Land-o'-mussy," exclaimed Mrs. Hayes, "she's coming down into the pan of lead that set out on the great rock to rise. Tim, 'tis strange that you can do nothing without overdoing it."

"Down with the Radicals and burrah for the President," sung out Tim, elevating Biddy again with less than a pint of butter hanging to her feet.

"Good gracious me! wuss and wuss!" cried Mrs. Hayes, and Tim agreed with her, for the hen had come down on the well polished tile of Squire Bennett, who had happened to be passing, and the dignified old gentleman was the father of Cynthia Bennett, the young lady with whom Tim was seriously enamored.

The squire looked daggers, brushed off the dough with his handkerchief, and strode on in silence.

"Yes, bus I's going up again," said Tim, spitefully, seizing the clucking piped and tossing her at random into the air. Biddy thought it time to manifest her own individuality, and with a loud scream she started against the parlor window, broke through, knocked down the canary cage, and landed plump in the sullen lap of Mrs. Gray, who was boarding at the faru house.

Mrs. Gray screamed with terror, and starting up, dislodged Biddy, who flew at her reflection in the looking-glass with an angry hiss. The glass was shattered and down came the hen, astonished above measure, against a vase of flowers, which upset, and falling over the stand dish, deluged with ink and water a pair of slippers, which Helen Maria was embroidering for her lover, Mr. James Hens-haw.

Helen entered the room just as the mischief had been done, and viewing the ruin, she at once laid it to her brother Timothy. She heard his step behind her, and flung the unfortunate hen full in his face.

There was a smothered oath, and the hen came back with the force of a twelve pound shot.

Helen was mad. Her eyes were nearly put out with the deathly dust and dough, and she went at Timothy with true feminine zeal. She broke his watch-guard in to a dozen pieces, crushed his dicky, and began to pull his whiskers out by the roots, when she suddenly remembered that Timothy had no whiskers to pull out by the roots.

But when she came to look closer she perceived that the man she had nearly annihilated was not Timothy, but James Hens-haw.

Poor Helen burst into tears and fled to her chamber, the usual refuge for heroines; and James, after washing his face at the kitchen sink, went home sternly resolved never to marry a woman with such a temper as Helen Hayes had.

The hen, meanwhile, returned to the barn to establish herself on her nest, suddenly determined to set if the heavens fell. Three weeks later she made her appearance with eleven chickous. While Mrs. H. and Tim did not succeed in "breaking up" the setting hen, the hen had broken up two matches—for Miss Bennett was "not at home" the next time Timothy called, and Mr. Hens-haw never forgave Helen for having such a temper.

Under the head of "editorial dignity" the National Intelligencer thus makes a little raid upon Forney and Gen. Brisbin: "We submit with becoming respect that the Chronicle should defer to the superior intelligence and elevated morale of society at the Capital, by abstaining from the publication of such vulgar effusions concerning the people of Kentucky as that which stains its columns of yesterday. The attention of Gen. Grant should be called to the case of Gen. Brisbin, once an editor of Pennsylvania, who now indulges in coarse abuse of the people of Kentucky, upon topics not fit for insertion in any respectable newspaper."

The prospect of a war between France and Prussia has caused a large number of United States bonds to be forwarded to the London market, and a depreciation in consequence.

It is said by the knowing ones that our acquisition of the Russian-American possessions is like getting the shell of the orange after it has been sucked. The bears and animals of "that ilk" which once made the icy regions valuable have been hunted out.

"I'm afraid you'll come to want," said an old lady to a young gentleman. "I have come to want already," was the reply; "I want your daughter."

Manhood: How Lost, how Restored.

JUN published a new edition of Dr. Culverwell's *Celebrated Essay* of Semenogenesis, or the Art of Increasing, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Embryology, and Phys., induced by self-indulgence or sexual extravagance.

Dr. Culverwell's author, in this admirable essay, clearly demonstrates, from thirty years' successful practice, that the alarming consequences of self-indulgence may be radically cured without the dangerous use of patent nostrums or the ardent potion of the kind, and that the mode of cure is equally safe, simple, and effective, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and rapidly.

This extract should be in the hands of every young man, and may be had for 6 cents.

Send, under seal in a plain envelope, to any address postpaid on receipt of six cents, or two post-stamps.—Also Dr. Culverwell's *Marriage Guide*, price 25 cents. Address, A. C. KLINE & CO., 127 Bowery, New York. Post Office Box 4,586. Feb. 27-ly.

There cometh glad tidings of joy to all.
